

PB02 Contract 01 - SaaS Contract Lifecycle Management Playbook Demo Agreement

This synthetic agreement is between Siemens Legal Operations and Commercial Counterparty 01. It is generated for Lou contract review demos and is not legal advice.

1. Commercial Background.

The parties are entering a transaction governed by playbook PB02: SaaS Contract Lifecycle Management Playbook. The commercial purpose is: Outlines best practices for managing the entire lifecycle of Software as a Service contracts from drafting to renewal.

2. Pre-contract due diligence of customer financial stability.

Preferred drafting position: Require financial statements and credit checks. The parties shall keep records showing compliance, notify each other of material deviations, and escalate unresolved issues to legal operations within five business days.

3. Pre-contract review of customer data privacy policies.

Preferred drafting position: Confirm alignment with GDPR and CCPA standards. The parties shall keep records showing compliance, notify each other of material deviations, and escalate unresolved issues to legal operations within five business days.

4. Onboarding process for customer data migration.

Fallback drafting position: Agree on data ownership and access rights during migration. The parties shall keep records showing compliance, notify each other of material deviations, and escalate unresolved issues to legal operations within five business days.

5. Service level agreement (SLA) performance metrics.

Escalation issue: No defined SLA metrics or penalties. The parties shall keep records showing compliance, notify each other of material deviations, and escalate unresolved issues to legal operations within five business days.

6. Data ownership and control during contract term.

Preferred drafting position: Specify customer ownership of all data processed. The parties shall keep records showing compliance, notify each other of material deviations, and escalate unresolved issues to legal operations within five business days.

7. Audit rights and access to system logs.

Preferred drafting position: Allow customer audits of data handling and system performance. The parties shall keep records showing compliance, notify each other of material deviations, and escalate unresolved issues to legal operations within five business days.

8. Notice requirements for service changes or breaches.

Fallback drafting position: Establish automatic notification via email or API. The parties shall keep records showing compliance, notify each other of material deviations, and escalate unresolved issues to legal operations within five business days.

9. Termination for cause and breach provisions.

Preferred drafting position: Define clear breach criteria and cure periods. The parties shall keep records showing compliance, notify each other of material deviations, and

escalate unresolved issues to legal operations within five business days.

10. Operational Exception.

The supplier may use experimental workflow tooling for internal reporting without prior written approval, provided no regulated data is exported. This clause is intentionally outside some playbook coverage so Lou can surface unmapped review findings.

11. Signatures.

The parties agree to the terms above through duly authorized representatives.
